MRS. CHAPMAN SUICIDE'S THE LOCAL HAPPENINGS

Jumped into River at the Gold Rav Dam.

Mary F. Chapman, aged 67 years, committed suicide late Saturday night or Sunday by plunging over the dam at Gold Rav. Mrs. Chapman had been a resident of Grants Pass for many years and before her marriage to Jos. Chapman eight years ago was a nurse and her former name, Mrs. Babcock, is known to many residents here and at Medford, Ashland and Jacksonville where she has nursed.

Mrs. Chapman for the past two months or more has been keeping house for Roy and Callie Hackett on Second street near A, while their parents were away. She had frequently told them that she would kill herself but as she was continually speaking of it no particular attention was paid to her talk. About two weeks ago she went to Medford to visit her daughter, Mrs. Noble. There she told that she was going to kill herself and seemed to have a mania for Rogue river. On Saturday afternoon she slipped out of the home unnoticed just in time to take the afternoon train for Tolo, to which place she purchased a ticket. After leaving the train at Tolo walked to Gold Rav, a distance of about two miles. Just before reaching the dam she was stopped by a workman who requested her to wait a few minutes as she was just about to fire a blast. After the blast, she was allowed to pass on and she continued on her journey up the railroad track toward the dam. This was the last time she was seen alive. On Sunday evening her body was found a few hundred yards below the dam lodged against a foot bridge. There were one or two cuts or bruises on her head caused by striking against the rocks in her downward plunge.

It is hardly probable that the act was committed Saturday night as her body would have shown marks of being dashed against the rocks had she been in the water long and it is hardly possible that she would not have been discovered by some of the scores of people who daily visit the dam and make Sunday picnics to that place. Her body, if lying on the bed of the stream would have been noticed by people passing along the railroad track as the water is very clear and looking down from that height makes it possible to see any object in the water. There are people crossing the foot bridge at intervals during the day and her body must have been discovered soon after it was lodged there. It is, therefore, probable that she spent the night in the woods and in the afternoon went to the river to carry out her designs. Nothing has yet been seen of her hat, cape, outside skirt and parasol.

Her husband, Jos. Chapman, who has been an inmate of the soldiers home at Roseburg for the past few months, was here Tuesday and states that for the past three years or more she has been mentally unbalanced at times and was continually threatening to kill herself, and many times had her personal effects and household goods packed in boxes preliminary to carrying out her suicidal intentions. Several months ago Mr. Chapman left her, believing, he says, that the shock might take her mind off of her mania and her thoughts be directed in another channel, and he feared that she would kill herself in such a way that he would be held responsible for the crime.

Mrs. Chapman's remains were buried at Medford Monday.

SMITH FELL FROM WAGON

Sustains Serious Spinal Injuries and Some Bruises.

Herbert L. Smith, a mining partner of H. St. Earle, was seriously hurt Wednesday afternoon by falling from a light spring hack and striking his head on a rock. The man was intoxicated and driving a spirited team belonging to Mr. St. Earle. He drove down Sixth street at a rapid pace and turned the corner at the Palace hotel. At about the middle of the block he pitched over the side of the hack. The man was immediately taken to a room in the rear of the Germania building and medical assistance summoned. There is a serious injury to the spinal cord causing a paralysis of the lower limbs. There was also a cut and bruise on the head and his left ear badly torn. The man is in a serious condition with a possibility of recovering.

Smith is 48 years of age, has a wife in San Francisco and three grown up children. He had been on a visit to his home and had returned to Grants Pass the morning of the accident.

The team continued on its course unguided, going down Fifth street to the road to the power house, turning to the right to Pine street then back toward town and finally stopping in the manzanita brush beyond the factory near the railroad track, without a bruise and with only a slight injury to the vehicle.

Galice Townsite.

The townsite of Galice located from the present Galice postoffice, has been surveyed and will be exploited. H. C. Perkins and associates, returned from there this week after having laid out 20 blocks of two acres each, 16 lots to the block. The townsite is located on the property of the Rand Mining Co. who own what was known as the Cope property and formerly the Big Yank claim. The company has five quartz claims and a 507 acres of placer ground. F. J. Barlow of Bellingham, is president of the company and D. L. Smith of the same place, is secretary.

L. B. Simonds is manager in charge of the work on the property and has been working double shifts for some time drifting on the ledge. About 150 feet of tunnel work has already been done and work is being rapidly pushed.

The new town of Galice is located 16 miles from Merlin, and is within three-quarters of a mile of the Almada mine, where they will work some of the old mine. Buildings will be erected as fast as lumber can be secured and there are already about 50 people waiting to build.

Bring Your Wife Along

Women are the best judges of dresses their own or the Men's. They know a good thing when they see it, and you may rely firmly on their good judgment.

Bring her with you, by all means, let her help you select your Summer clothes. She'll understand that "genuine goodness" of a Schloss Art-Tailored Suit, better, perhaps, than you. However, you are sure of good treatment here, whether you bring her or not.

The difference in the cost of a Schloss-made Suit and that made by the "merchant tailor" will be enough to open her eyes to the possibilities for money saving. Just think, we sell a suit like either of those shown in the picture at so little a price as

\$12.50

The "merchant tailor" would want to charge \$25 for a suit not so good in fit, style or quality. Here is a clear saving of \$12.50, which your wife can find good use for in adding to her own wardrobe. No wonder she is bent on breaking you of the "merchant tailor" habit.

This label on Schloss made clothes is to protect the wearer. It stands for reputation, uniform excellence and up-to-dateness.
